

An

# Invitation to have your say on creating a Doorstep Green in Oxborough

Public  
Consultation

A Doorstep Green is a multipurpose, community green open space, very close to people's homes and easily accessible to all local community. It should be designed to meet all villager's everyday needs for informal outdoor recreation in pleasant, natural surroundings.

Some ideas: Wildlife area

Community garden plot

Tall grasses

Small orchard

Informal play or games area

Pathway & Benches

The Green will also be designed for sustainable, low cost management, which will involve local people who wish to take an interest in our village life.

What ideas do you have? How would you like the Middle Field to be used by us, the village? The Countryside Agency have informed us that they are recommending Oxborough Doorstep Greens Project for funding at the National Decision Panel meeting on 11<sup>th</sup> December, by which time we must have submitted a completed application form. (This initial funding will be for the development of the Green and then further money e.g. Lottery will be needed to buy the field.)

Come along to the village hall on **Wednesday 20<sup>th</sup> November, 7.30pm** to hear all about it. This meeting is the only one we have time for before the deadline. Please make an effort to attend as everyone has a voice. Allison Conder from The Countryside Agency will be on hand to advise on Doorstep Greens and the Chairman of the Parish Council, Henry Lambert will chair the forum.

NOW, if you have any items to be included on the AGENDA, please complete the following and return to the clerk, last date for inclusion Thursday, 14<sup>th</sup> November.

Please cut here

Doorstep Green Public Consultation 20<sup>th</sup> November 2002, 7.30pm.

Item to be included on the

AGENDA.....
