

SAM 2 Sign Report

Since my last report I have managed to return to looking after the SAM2 Sign. Again, thankyou to David for taking over my duties in my absence.

I provided the Speedwatch Co-Ordinator and the Police with traffic data every four weeks. The main Swaffham Road continues to prove to be a busy thoroughfare with a steady trickle of vehicles exceeding the speed limit especially from the Swaffham direction. Foulden Road traffic data continues to show traffic travelling below the speed limit as they enter the village.

Our County Councillor, Fabian Eagle, has set aside some funds to help with speed awareness for the village such as the repainting of the 30moh signs on the road and speed awareness signs.

That concludes my short report.

Simon Willies
